Outlook for the day

The market is likely to open flat today taking cue from Asia markets which traded lower as investors digest the conclusion of trade talks between U.S. and China and weak economic data from China. U.S. stocks edged higher Wednesday, boosted by optimism over trade talks and signs that Federal Reserve will stay flexible with its interest-rates, while U.S. futures were negative. European shares rose further on Wednesday with the export-oriented autos and tech sectors leading the way on growing optimism over a possible trade deal between the US and China. Back home, TCS, Bandhan bank and Goa Carbon will declare earnings for the December quarter today. As per provisional figures, foreign institutional investors (FIIs)/ Foreign Portfolio Investors (FPIs) bought shares worth net Rs 276.14 crore on 9th January 2018. Domestic institutional investors bought shares worth Rs 439.67 crore on that day.
